# Inspiration starts at the office.

Creativity and innovation should be reflected in the workplace – from the furnishings to the décor. The colours, textures, and even how the pieces are laid out, should all work together to create a positive and productive atmosphere.

At Staples Professional™, we can help your space communicate exactly who you are through our comprehensive selection of solutions and services that go beyond just the furniture.

From hands-on assistance and creative services, to hundreds of choices from the most respected brands, let us help your space stand out from the crowd.

# The process.

Our furniture experts at Staples Professional™ have the same goals as you – to do more in less time with less difficulty. Our efficient process ensures that we can accomplish our job without distracting you from yours.

## **Collaborate.**

It all begins with a conversation – with your Furniture Account Manager. We will explore and discuss your goals and needs, ensuring we consider all aspects of your project.

## **Plan.**

The next step: our expert planners will go ahead and turn all those conversations into action – all while meeting your business needs and brand requirements.

## **Select.**

Feel inspired by the fantastic options available to you through our hundreds of vendors.

## **Deliver.**

We will be with you for every stage, completing your project on time, on budget, and with ease.

## **Install.**

Finally, we promise an install that you are 100% satisfied with; we pride ourselves on it.

# Index.

# Greener choices. Healthier results.

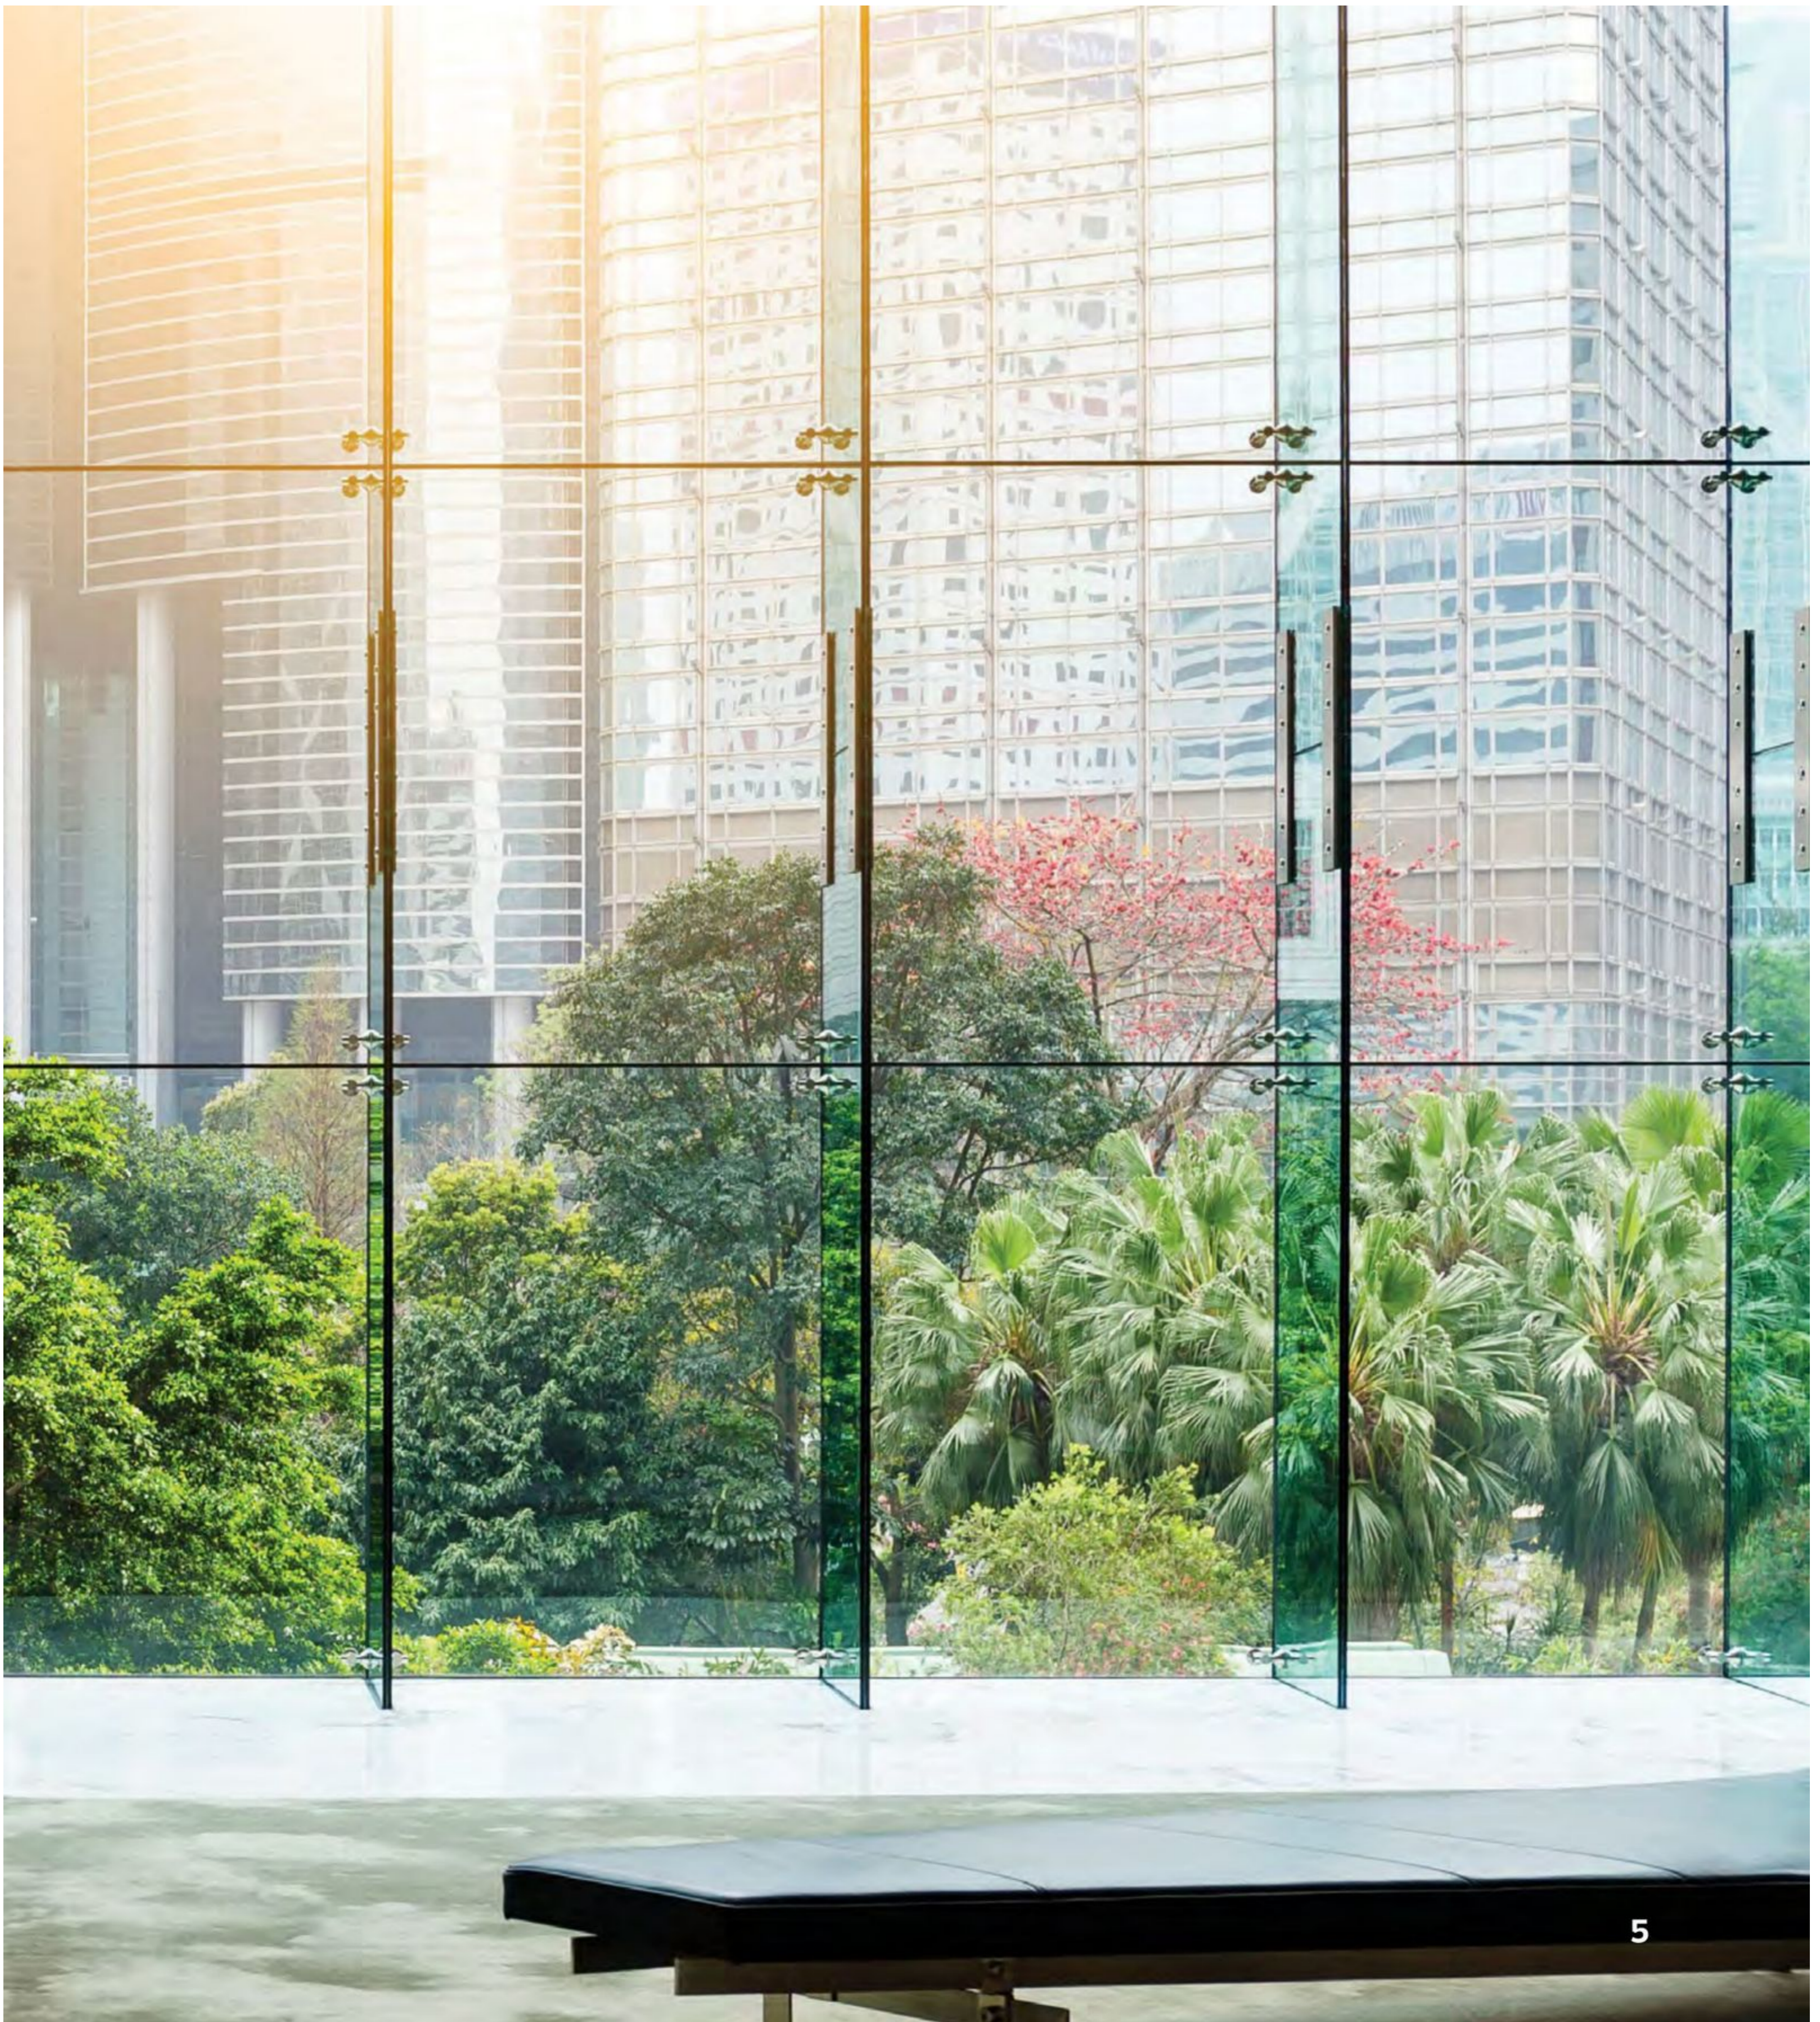

When we are kind to the environment everyone wins. At Staples Professional™, we want to encourage and empower our clients to make a difference by introducing you to some of the most earth-friendly manufacturers on the market today.

Throughout this book, you will see durable, quality and unique pieces that work wonders, make a statement and look amazing, all while protecting our planet.

Our expert team is here to help you navigate this new, greener world by getting you acquainted with vendors that hold certifications from environmental organizations, such as LEED, Forest Stewardship Council (FSC), Greenguard Environmental Institute (GEI), WELL Building Standard® and Cradle to Cradle™. We also have a partnership with CSR Eco Solutions.

Extensive selection, expert service – it has never been a better or easier time to bring a little green into the office.

# ADAPTING

Because flexibility has never been more important. Stay productive in any environment. Create a space that helps you feel engaged and productive, no matter where you work.

6 | Get started by visiting [StaplesProfessional.ca](https://StaplesProfessional.ca)

A photograph of a man with a beard and short hair, wearing a blue denim shirt over a white t-shirt. He is smiling and looking down at a baby he is holding in his arms. The baby is wearing a dark blue long-sleeved shirt and denim shorts. The man is also looking at a laptop screen in the foreground. The background is a plain, light-colored wall.

Grab your coffee and get ready for your workday. Sometimes that includes jumping on a conference call, then doing some fingerpainting. Welcome to the ultimate balancing act.

# BALANCING

# COLLABORATING

Connect and Share. Brainstorming and collaboration can set off a spark! Create spaces for group work and collaboration to help build innovative ideas come to life.

# SPACE CHANGING

Create spaces that adapt to your team, not the other way around. Goodbye private desks, hello offices that are more inspiring and flexible.

Interior  
Solutions

# Welcome to work.

Every business shares a common goal: to foster a positive and collaborative atmosphere in a comfortable environment. The first step: finding that right mix of furniture.

We understand that whether you are looking for a traditional-style setting or a more open, modern space, those pieces, from desks and chairs to setting up conference rooms, can all have an impact on productivity. How an office is outfitted also speaks to who you are as a company and can impress potential clients.

With over 200 furniture brands at our disposal, we have the solutions for every type of company and business. Great things happen when you work with people in the know.

# Here for healthcare.

For those who work in the healthcare industry, you know it can be rewarding, yet stressful. You need spaces that really work with room to move, collaborate and allow for privacy.

We understand that where patients heal is as important as how they heal – so versatility and comfort are a top priority in creating the best solution for you.

Everything comes together easily when you work with someone who gets it.

NURSES' STATION

## HEALTHCARE

The optimal design of nurse stations support work flow processes, staff circulation and task sequencing.

# Engaging education.

As an educator, you know your students require a classroom that is more open, colourful and interactive. A space that will ultimately spark their creativity and love of learning.

We understand that students today live and learn in a digital, more technology-driven world – so creating a learning space that invites collaboration, while introducing the latest technology, is essential to a successful education.

By working together, we can help get class in session.

## EDUCATION

Our experts at Staples Professional™ have sourced the best STEAM solutions available in the market. Whether you are looking to compliment your existing products or are starting from scratch, we have the solutions available to offer your students the best in STEAM education resources. From coding to 3D printing or charging solutions to Virtual Reality, we have it all.

# Reimagined Spaces.

The workplace that was once familiar has now radically changed. Whether it's an office, a distribution centre, or a classroom, Canadian organizations are learning to adapt to new requirements to keep their associates and customers safe, while maintaining a space to connect and collaborate.

Staples Professional™ has a team of experts ready to help you reimagine your workplace, from workspace design, planning, and installation to facility and safety assessments.

## PROTECTION

Focus on physical distancing with the help of a wellness screen. Screens help reduce noise and support a socially distanced workplace by allowing employees to focus attention on their tasks in their own space.
